STRATTON EXECUTORS FILE [illegible] INVENTORY OF THE ESTATE

The executors of the Stratton estate filed yesterday noon in the office of the county clerk and recorder a complete inventory of the real and personal estate of Winfield Scott Stratton. The inventory is an interesting document, going into all matters connected with the holdings of the personal estate.

Upon the filing of the report, Judge Orr allowed the settling of claims against the estate to the amount of $24,-72.85. The largest items paid are the bills for the street sprinklers, the bill of the Allis-Chalmers company of Colorado for the compound engines at the power house, the bills of the General Electric company for machinery and the bills of the physicians who attended Mr. Stratton during his last illness. The court's order was given William Lloyd, secretary for the late Mr. Stratton, and he is proceeding to settle the claims.

The filing of the inventory is practically the receipt of the executors for the real and personal estate as turned over to them by the administrators to collect, Tyson S. Dines, D. H. Rice and A. C. Sharp, who [illegible] their final report and were discharged by the court April 23.

The inventory shows a total of $4,772,857.47 as the value of the real and personal estate.

Of this total, $3,998,303.73 is represented by chattel property, the value of the real estate is set forth as $39,647.10, the open accounts and notes aggregate $784,856.74, of which the good accounts represent $620,352.71, the doubtful $47,896.72 and the desperate claims $57,635.31.

Of the good items in the open accounts the largest is that opposite the name of H. C. Brown, $623,333.33, contracted June 20, 1902, and representing the Stratton interest in the Brown estate.

There are many items under the head of desperate, mostly of small amounts.

The real estate represents property in Colorado Springs, Colorado City and in the vicinity. There is one item under the head of chattel property which is interesting as showing the manner in which Mr. Stratton's wishes are being carried out. It reads: "Two old horses, pensioners at pasture, no value." Of the other items under chattel property the cash on hand April 23, is given as $34,637.77, the amount turned over to the administrators to collect. When the administrators took the estate October 28, 1902, the balance to the credit of Mr. Stratton's private accounts in Colorado Springs banks, representing the total cash received on that date was $21,514.28. The difference represents the balance left after the heavy cash disbursements of the administrators.

The inventory in detail follows:

DEATH OF AUGUST SAHLBERG MULTI-MILLIONAIRE MINER

By Associated Press.

Butte, Mont., May 6. A Miner special from El Oro, Mexico announces the death of August Sahlberg, the multi-millionaire miner at that place. Sahlberg went to El Oro 10 years ago from Montana. He was without money and friends and after many months of hard labor, struck the vein of what is now the famous Sahlberg mine which, in a few years, yielded him a fortune of more than $10,000,000. Sahlberg was a well-known mining man of Colorado and Montana.

Colonel Stanford has been a [illegible] for the last four years and his death was due to [illegible] prostration and heart failure. At one time the deceased was a millionaire, but according to his second wife, who survives him, he died in almost absolute poverty.

[illegible] MAKES A [illegible] MOVE [illegible]

[illegible] Sweeping Injunction Against Teamsters—Union Practices Make Strike [illegible] Unlawful—Local Officers [illegible] State Officers.

By Associated Press.

Omaha, May 6.—On petition of a number of complainants, including the principal transfer and delivery companies involved in the teamsters strike, Judge Munger of the federal court tonight granted a temporary restraining order enjoining the officers of Team Drivers International union, local 7, J. E. Crews, president; R. S. Wilcox, treasurer, and Edward Sumner, secretary, together with all members of the union from doing certain acts calculated to interfere with interstate commerce and commanding them to appear in court May 9 to show cause why a permanent injunction should not be granted.

The petition was filed by attorneys representing seven delivery companies, five coal dealers, one lumber company, one jobber and a department store.

Basis of Complaint.

In their petition the complainants recite the terms of the contract the team drivers asked them to sign and the particular objection to that clause therein which provided that no teamster who [illegible] be discharged, laid off or docked in his time or pay for refusing to haul goods to or from any house, firm or corporation or contractor declared to be unfair by the labor unions, and then go on to relate particular instances in which by threats, intimidation and violence the strikers have interfered with their lawful business.

It is alleged that a threat was made by one of the strikers that if Walter Jarvine undertook to do business with non-union drivers he would be assaulted and killed. It is further alleged that interstate commerce was interfered with when the strikers stopped goods in transit from Omaha to Council Bluffs and from one station to another in Omaha.

Provisions of the Order.

The order issued by Judge Munger is of the most sweeping nature. More than 300 members of the Teamsters union are named in the order which restrains them in part, as follows:

First, from in any manner posting or keeping posted at or about the places of business of your orators, or any of them, pickets instructed or directed to challenge, stop, threaten or intimidate any of the employes of your orators, or any or any of them, from proceeding with their work and service as such employes and from in any manner interfering with any of the employes by violence, threats or personal injury, calling of vile names or of opprobrious epithets or any other conduct calculated or intended by intimidation or humiliation to prevent any of the employes of your orators, or any of them, from continuing in said employment, or performing the work for which they are employed.

Second, from congregating about the teams, wagons or employes of your orators and demanding and commanding that the employes shall desist from their employment.

Third, from ordering, directing or inciting any other persons to threaten, assault or by the use of profane or vituperative epithets to intimidate any employe, or to seek in any way by violence or threats of violence or injury to property or to persons to prevent the employes from continuing in the service of their employers.

Interstate Commerce.

Fourth, from following the employes to their homes or other places for the purpose of intimidating and from attacking, assaulting or injuring any of them and from publishing any orders, statements or directions by the officers of the said Team Drivers International union, or any other similar [illegible] or enjoining under the guise of personal violence, or other persecution, any of the employes from continuing in the service of their employers; and further restraining and enjoining the Team Drivers International union, local No. 71, its officers and men from continuing said organization and from continuing in combinations or agreements or concerting of action to prevent the moving of freight and merchandise while in transit and merchandise while in transit, in course of shipment between any points within the city of Omaha, and any points outside of Nebraska or in any way interfering with the business of employers, while engaged in interstate commerce, so long as this restraining order remains in force, or until further order of this court.

To Enforce the Order.

The action of the federal court practically takes the strike out of the hands of the local and state authorities and a violation of the order, it is believed, will result in the calling out of federal troops if necessary, to preserve the peace and enforce the order of the court.

Large crowds of strikers have gathered in different parts of the city during the day. The entire police force is doing double duty, but no violence has been reported during the day, and no arrests have been made.

[illegible] CONTEST PER A.T. 97 [illegible] ELECTION IS [illegible] BAIL

By Associated Press.

Baltimore, May 6.—It is believed [illegible] of the election precincts out at yesterday's municipal election [illegible] give Robert M. McLane, Democratic candidate for the mayoralty a plurality of 530 over Frank N. Waltor, Republican. The ballots in the remaining four precincts are still uncounted owing to disputes among the judges of election. They are now in possession of the board of election supervisors, who announced today that the boxes will not be opened until tomorrow. It is thought possible that the count of the ballots will materially change the result in favor of McLane.

Mr. Wachter, the Republican candidate, and his party leaders charge that many votes cast in his favor were illegally thrown out and they announce they will appeal to the courts.

The Republican candidates for city comptroller and president of the second branch of the city council were elected. The Republicans will have a majority in the first branch. The Democrats will have a majority in joint ballot and thus will be able to elect the city register, who is virtually the municipal treasurer.

[illegible] MEN [illegible] MEN [illegible] BETWEEN [illegible]

By Associated Press.

Medford, Mass., May 6.—Nellie Sturtevant, aged 25, daughter of Treasurer Sturtevant of the Medford Co-operative bank, was shot and killed in her home last night by an unknown man who attempted to rob her father of his wife and money. The assassin then jumped upon his bicycle and escaped. An Italian who answered the description of the murderer was arrested two hours later on suspicion.

Mr. Sturtevant reached his home about 11:30 last night, having with him a satchel well filled with money and checks belonging to the bank. As he stepped upon the piazza of his house his wife and daughter opened the door and a few words of greeting passed between them. At that moment a rough looking stranger appeared around the end of the piazza and ordered Mr. Sturtevant to throw up his hands. The order was not immediately obeyed and Miss Sturtevant stepped in front of her father to shield him from them just as the intruder fired. Miss Sturtevant was shot through the right temple and fell at the feet of her parents.

Mr. Sturtevant was prostrated by the shock, but this morning he was able to tell the police some particulars of the murder. He says that when the stranger ordered him to throw up his hands Miss Sturtevant rushed at the man and struck him with her umbrella. With one hand the man grasped at Miss Sturtevant's chatelaine bag. He simultaneously fired the revolver which he held in the other hand. This bag he took.

General Manager Herbert in charge of operations of both the Colorado Southern and Fort Worth & Denver City railway, which is in reality a portion of the Colorado & Southern system, is perfecting plans for the improvement of the entire system. Mr. Herbert has been over 10,000 roads several times of trips of inspection, and as rapidly as possible is carrying out the improvements decided upon. Wooden bridges are being replaced with steel and concrete structures, curves and grades on the main line through New Mexico and Texas are being reduced and it is announced that heavier rails, new equipment and newly ballasted roadbed will place the line from Pueblo to Fort Worth in a condition affording competition with the Rock Island and Gould lines to the southwest. The South Park division and the Colorado Central branch of the same property will also be improved.

It is an open secret that Frank Hawley, who with George Coppock, General Grenville M. Dodge and associates, controls the Colorado & Southern, was actuated in creating the [illegible] for Mr. Herbert to put the road in the best possible condition and the expenditures to carry out these plans will be large. In the betterments Colorado Springs is interested, as is also the plan to shorten the passenger schedules between Denver and Fort Worth and by new and special equipment to make the Colorado-Texas business a feature.

The connection ordered at Amarillo with the Choctaw, Oklahoma an Gulf affords a direct line to Arkansas points, Memphis and the southeast and Gulf travel will be diverted in this route. Grenville Dodge, who is chairman of the board of directors of the Colorado & Southern, is heavily interested in the Choctaw, Oklahoma & Gulf [illegible] of Cuba [illegible]

With the filing of papers in the office of the county clerk and recorder yesterday noon, extensive plans for betterments on the Colorado & Southern system came to light. Not only is the road purchasing the newest type of equipment but plans for additional construction and improvement of the track south of Colorado Springs were made known.

and it is held that the possibilities of traffic between the Colorado & Southern and the Rio Grande in one of the greatest assets of the future in the Hawley holdings.

From one in the confidence of Mr. Herbert the statement comes that millions of dollars will be spent this and succeeding years in the plans of the new owners of the road.

Instrument Filed.

An agreement was filed yesterday in the office of the county clerk and recorder between the American Loan & Trust company of Boston, party of the first part, and the Colorado & Southern Railroad company of the second part, involving an expenditure by the railway company of $274,875 for motive power. The agreement sets forth that as the American Locomotive company of New York has constructed for the railway company 12 consolidation freight locomotives at a cost of $18,900 each and three passenger locomotives at a cost of $16,625 each, a sum total of $274,875, and as the American Loan & Trust company as lessor, at the request of the railway company as lessee has paid for the same the agreement states that the lessee, the railway company, agrees to pay to the American Loan & Trust company, the sum of $219,[illegible]0 in installments, the entire amount to be paid in five years. The company has paid in cash to the locomotive works $60,080.82. The difference between the amount to be paid and the amount of the bill represents the interest accruing to the Loan & Trust company.

It is further stipulated that the lessee shall keep the engines in good repair, shall keep up the insurance and will place a plate on every locomotive stating that the American Loan & Trust company is the owner. Default of 30 days on any installment, according to the agreement means that the locomotives will revert to the lessor.

Main Line Service.

The locomotives will be put in service on the main line. Between Denver and Pueblo, the Colorado & Southern uses, under joint arrangement the Santa Fe tracks.

President Trumbull of the Colorado & Southern will leave Denver for Europe May 17, sailing from New York May 23. He will spend three months at Carlsbad, Germany, and during his absence Vice President and General Manager J. M. Herbert will be acting president. It was announced at the time Mr. Herbert resigned as manager of the Denver & Rio Grande that he had accepted the position of vice president of the Colorado & Southern, with the understanding that the management of the road would be completely in his charge and the [illegible] rumor is being received in Denver that Mr. Trumbull will go to New York in charge of the financial end of the Hawley system, remaining on the board of directors, while Mr. Herbert will succeed to the presidency. Neither Mr. Herbert nor Mr. Trumbull are making any statements.

COLORADO SPRINGS should profit by the experience of other cities, and especially by the notorious example of St. Louis, and pass an ordinance regulating the tariff for hauling [illegible] and baggage.

GENERAL WOOD AND GENERAL BROOKE.

THE REASONS for the rapid rise of General Leonard Wood from the position of a cow-puncher surgeon to that of brigadier general are gradually coming to light.

The correspondent, Bellairs, claims that "he made General Wood" and certainly he contributed much to the [illegible] press that was laudatory of Wood.

A more serious charge now made is that General Wood was the inspiration of an attack upon General John [illegible] Brooke, Wood's predecessor in Havana, which appeared in the North American Review in 1900. HOLBROOK & PERKINS

CITY'S WATER RIGHTS ON BEAVER MAY BE CALLED INTO QUESTION

Claims are made that the city of Colorado Springs has been appropriating water which does not belong to it and which is in excess of the rights acquired when the water system became a part of the municipality. E. H. Clark, president of the last city council, and who was one of the leaders in the move, put to rest a rumor yesterday that he has no doubt the city's rights are secure.

"In the question which now faces the new city council the companies securing water from the Beaver creeks and the Arkansas river are interested and officers of the Pueblo Suburban Traction & Lighting company are investigating the situation so far as the rights of that corporation are concerned."

F. M. Woods, general manager of the Arkansas Investment company, which is a part of the Pueblo Cable Railway & Light company, stated last night that the city is receiving more than its share of the water and it may be necessary to take steps to protect the rights of the corporation on Beaver creek.

The report was current yesterday that the city of Colorado Springs had purchased the Fancher ranch on Beaver creek, a short distance from the junction of it with the East Beaver and a mile from Fairbanks and that it had come to pass within the past few days that it was losing the water rights, running the water without any rights to it. Title to the priorities and the land itself was owned by the Pueblo Suburban Traction & Lighting company. It was also stated that this company was contemplating the bringing of suit against the city to secure its rights.

Woods' Statement.

"The situation in regard to the water of the Beaver water rights we own, our company and Colorado Springs is too complex to go into detail at this time," said F. M. Woods. "We own the Fancher ranch which consists of 80 acres on Beaver creek and all of its water rights. The same company owns several other ranches on the Beaver and there is no question as to the validity of our holdings on the streams. The city takes its water from the Beaver and has been cutting into our flow. We do not contemplate at this time any action in the courts and I cannot state what action will be necessary for us to take to protect our rights."

The city of Fairbanks, the ranchmen along the Arkansas valley and those who are around upon the Arkansas and its tributaries on the Beaver watershed will probably join in any action of a restraining nature brought against the city. Complaint is being voiced that the city's requirements will interfere with irrigation this summer and a test suit has been suggested. President J. C. St. John of the city council states that the city has no interest whatever in the Fancher ranch and is not aware that the city is taking more than its legal portion of the Beaver flow.

Former President Clark said:

"There was no purchase per any contemplated purchase of this property owned by the Woods company. The city owns the Glendale ranch which is on the Canon City road where it crosses the Beaver, and the Palmer ranch which is situated a mile above the junction of the main Beaver with the Arkansas river. This ranch is at Beaver station on the Denver & Rio Grande railroad. Of course, the city owns all the water rights pertaining to these two properties.

About the System.

"The water system of Colorado Springs is on the middle, or main Beaver. Strickler reservoir No. 2 is in Beaver valley. The Strickler tunnel brings the water from No. 7 to No. 8 reservoir in West Beaver to Middle Beaver. The city owns rights to from four and one-half to five cubic feet of water per second on the Beaver watershed and is secure in those rights.

"The only question, and the question which is now being agitated is whether the city with her reservoirs at the head waters of the Beaver is interfering with the rights of people below. Any right that the city possesses on the Beaver applies to the tributary streams. I am not advised what action, if any, will be taken along this line but the council was exceedingly careful in securing to the city its rights, in view of just such a contingency."

It is the opinion of those informed of the situation that this summer will see action in the courts to determine the rights of the city on one part and the corporation and individual consumers on the other. It is intimated in Victor that evidence has been secured on which such action can be based.

RAILROADS COMBINE TO INCREASE FREIGHT RATES

Action Made Necessary, It Is Claimed, by Decrease in Rates Received on Account of Interstate Commerce Commission Findings Caused by General Advance in Wages of Employees.

The railroads throughout the country are getting together for a general increase in rates to recover, as much as possible, a decrease in the net earnings caused by the general advance in the wages of employes.

These advances range from 12 to 15 per cent, and with the increased cost of material, the additional outlay amounts annually to millions in the aggregate.

This increase must, it is held by the companies composing the various large associations, must be made up and the shipper will pay higher rates.

All plans of the roads to increase earnings was touched upon by Vice President Paul Morton of the Santa Fe, who is in Colorado Springs this week, Mr. Morton said:

"Railroad business is good; gross earnings are larger than last year, but owing to high cost of materials and general advances in wages we are not showing any increase on net earnings, and probably will not unless we can secure some advance in rates."

The first advance, affecting commodity rates from the Mississippi river, to Colorado points has already been made. This will be followed by a stiffening of class rates generally, and, as indicated by Mr. Morton, the movement to this end has already crystallized. The entire country will be affected.

According to the advices received by railroad men in Colorado Springs passenger rates will not be affected.

"The reason is that no uniform rate can be made," said a traffic official yesterday in discussing the movement for higher tariffs. "There are many states where the passenger rate per mile is fixed by state legislation. For instance, it is 4 cents a mile in Texas, 2 cents in New York, except when in territory competitive to the New York Central, where it is lower, and varies in the different states. In Colorado the mountainous character of the state, the steep grades and other conditions that go to make operation expensive, makes compulsory a higher tariff than applies to the rest of middle western states. The questions that would arise in any concerted movement to raise passenger rates and the matters involved in regard to railroad commissions and legislation, put as impracticable any effort to advance passenger tariffs."

It is believed that all classes of freight will be affected, ore as well as commodities and all the other classes.

Strong Jury Examines Witnesses

Has Not Reached Any Conclusions Yet Reached in Case.

The grand jury was in session yesterday from 10 o'clock in the morning till 6 o'clock in the afternoon. During that time quite a number of witnesses were examined but no conclusions were reached and no capiases issued.

The session today will commence at 10 o'clock and the examination of witnesses will be continued. It is understood that the question of fire escapes will come before the jury and it is probable that summons will be issued for the owners of buildings who have not complied with the ordinances providing for fire escapes.

None of the jury are now being held in the civil court room of the new county court house. The matter of the expense incident to its meeting at the old court house was brought to the attention of Judge Cunningham, and upon the latter's invitation the civil court room was turned over to the jury's use.

Sheriff W. R. Gilbert yesterday made return on the capias of Laura Bell, Laura White, Sadie Stewart, Mary Doe, Minnie Major, Lulu Wilson, Laura Clifton, Cora Davenport and Gus Hamm. The arrests were made as a result of the first two or three days' work of the grand jury.

All bills against the city shall be paid by it in pay day and the city will owe about $54,843.73 at the end of the month, according to the statement of the city comptroller. The city of Colorado Springs pays its employes every two weeks and the pay roll for the last city hall will give out about $24,843.73. Contractor John Acker, who is now erecting the new city hall will give out a warrant for $1,000, and County Clerk W. E. Reed will be paid a warrant for $1,000 during a list of taxpayers of low assessments on the new bond issues presented at the first session.

City Auditor Clarke, city auditor and mayor, will open again the greater part of yesterday and the day before in affixing their signatures to the warrants that will be drawn to pay. There are over 500 of the warrants which are issued payable in amounts ranging from $10 to $1,000.

Water System Involved.

Special Meeting of Council Tonight—St. John Believes Issue Will Involve More Than Was Bid at Last Meeting.

The only alternative in the water bond situation seems to be a readvertisement for bids. As already stated the bids submitted at the meeting of the council Monday night were both below par and neither bid will be accepted for that reason. Under the state law governing cities of the first class, no bonds can be sold for less than par and aside from that stipulation the city officers are not willing that any of the city's certificates of indebtedness shall sell below the face value.

The special meeting of the council tonight was called for the purpose of hearing the report of the finance committee on the bids, but it is understood that its report will recommend the discarding of the bids and the readvertisement of the issue.

The representatives of the banding companies, who were in the city for the purpose of submitting their bids, have left without offering any higher price for the bonds and the result of the first advertisement seems thus to have amounted to nothing.

Extension of System.

Behind this failure to get an acceptable bid is involved the construction of the proposed water extension by which it is sought to make the water supply of the city equal to the drain upon it. The bonds offered for sale under the advertisement are $60,000 worth of water extension bonds, and it is proposed to use the funds collected by their sale in the construction of the new water system. The failure to sell them at this time will stop all work in this direction until an acceptable bid can be secured. It is understood that the date for the receipt of bids under the readvertisement will in not more than 30 days and if an acceptable bid is received at that time, the work will be taken up then.

The need of the new water system is becoming more apparent every day. The city's present plant is running 9,000,000 gallons of water a day and the system is only able to furnish properly about 7,000,000. Any amount over that goes directly through the pipes from the mountains and no opportunity is given for settling and no reserve is accumulated for emergencies.

Treasurer J. C. St. John gave it as his opinion yesterday that the city would be able to get a par bid on the readvertisement and declared that he did not believe the failure at this time would seriously affect the water works construction. "It will not do much more than delay it about a month," he stated.

MUSICAL RECITAL.

This evening at the Alamo hotel the pupils of Prof. Dietrich will give a very fine musical entertainment. The program to be given on Page three.

The musicians are many of them from the blind school and all are quite well known in the city. All are possessed of a great deal of musical ability and the evening's entertainment will be one of exceptional merit and will be a most pleasing event.

Rev. C. H. Wilcox and T. P. Barber of this city left yesterday for home, according to recent letters. They have been making a tour of Europe and the Holy land.

Monument and Falcon Each Levy 10 Mills—Other Levies Range From 2 to 7 Mills.

The county commissioners have begun to receive reports from the various school districts of the county, stating the special school tax levies that will be made in the districts for the coming year. The law requires that these levies shall be made in May of each year and further stipulates that a report of the amount levied shall be made to the county commissioners. There are 48 school districts in the county and nine of them have already made their reports to the board of commissioners. They are:

District 34, Falcon, levy, 4 mills on the dollar.

District 38, Amo, levy, 2 mills on the dollar.

District 5, Monument, levy, 10 mills on the dollar.

District 49, Falcon, levy, 10 mills on the dollar.

District 47, Amo, levy, 2 mills on the dollar.

District 47, Green Mountain Falls, levy, 7 mills on the dollar.

District 28, Monument, levy, 6 mills on the dollar.

District 10, Husted, levy, 2 mills on the dollar.

The funds secured from these levies is used for the construction of new buildings and the adding of improvements of all kinds to the school buildings and grounds in the various districts. The funds for the maintenance of the schools and the payment of teachers' salaries will be realized out of the general school levy made by the county commissioners in October. This levy last year amounted to 5 mills on the dollar and it is probable that an equal levy will be made this fall.

Under the system in vogue in this state the general school funds collected by the levy of the county commissioners is turned over to the county treasurer and by him apportioned among the various districts according to the number of school children within the district. The county commissioners complain against the system requiring the special levy to be made in May and the general levy in October for the reason that as they contend this plan often results in too large levies by the districts themselves. They hold that it should be changed so as to allow the special levy to be made after the general levy.

...AWOOD'S SERVICE...
...DEAD BEAT IS SAVED

K. C. Corey says that if anybody is held responsible for the irregularities in the building inspector's office, it should be Water Commissioner Davis.

"I am innocent of any wrong doing in the matter," said Mr. Corey yesterday, "and I shall stay here until my innocence is proven. If fault attaches to anyone it is to Water Commissioner Davis for his failure to properly check the returns in my office.

Mr. Corey said that the additional discrepancies charged against him had been referred to his attorneys, J. Bell Crowell and W. D'Arcy Lombard, and would be handled by them in connection with the charges now pending against him.

The investigation into the details of the additional shortage in the office of Building Inspector K. C. Corey is being pushed by Chairman Dunbar of the council finance committee through Accountant Bach and the two auditors appointed Tuesday. Nothing definite has yet been obtained and the apparent amount of $3,150 stands in the returns.

Just what part of this amount will be found to be Mr. Corey's shortage will depend upon the report of Mr. Bach, which will stand until a final report is made. Mr. Dunbar states that the matter will be sifted to the bottom and the necessary legal steps taken when the definite shortage has been learned.

Under the city ordinances the building of a house at a cost of over $100 without a regularly issued building permit is a misdemeanor, and a fine is imposed of not less than $5 nor more than $50 in each case. In regard to this provision, Chairman Dunbar stated yesterday that the finance committee would no doubt take legal action against the owners of the property and the builders of the houses. According to the report of Accountant Bach there were 102 houses built without permits and if the owners and builders are prosecuted under the provisions of the ordinance in question it will find the minimum amount the city will collect the sum of $5,610. This amount would cover the Corey shortage and me the sum of $464 additional.

In addition to the names of builders already announced as having constructed flats, etc., to be hunted for the building of which no permit could be shown, the following out of town names were added yesterday afternoon by Alderman Aldrich, C. E. Clark, Tax Collector Jones, Comptroller J. A. Russell, J. York and Carl Zittel.

...MUSICAL CONCERT
THEY RE-WORK G FOR MPROVEMENT OF MANITOU

The first of a series of popular concerts under the direction of J. P. Grant occurs next Saturday evening in the Y. M. C. A. auditorium, beginning at 8 o'clock.

The Woman's auxiliary members are preparing a fine banquet for the first day that the Y. M. C. A. members will hold in the new building. It occurs at 6:30 o'clock tomorrow night and an excellent program has been arranged.

Fred Shedd will deliver a lecture on "Snow Crystals," in the auditorium of the Y. M. C. A. this evening.

A regular meeting of the gymnasium committee will be held this evening at 8 o'clock in the Y. M. C. A. gymnasium.

The bible classes will meet as usual this evening at the Y. M. C. A. building.

The members of the Senior Camera club will meet tonight at the Y. M. C. A.

The Manitou Improvement association met last evening in the city hall but owing to the absence from the city of a number of the members no business was transacted. Several subjects were discussed in an informal way, the session resolving itself into a social rather than a business meeting.

The Ladies' auxiliary to the association will meet tomorrow night to discuss various matters in connection with the projected for cleaning up the town which the women have started since the inception of the auxiliary. The streets and gutters have been put in better shape than ever and the women propose to continue along this line during the coming summer.

Dr. D. Stephen A. Engle, a veteran, died yesterday morning at his home near Florissant, aged 85 years. The deceased had lived in this part of the state for a number of years. The funeral services will be held this afternoon at 2:30 o'clock from the undertaking rooms of Bluett & Baker. Interment will be in Evergreen cemetery.

...MAN'S STORY OF [illegible] MEN
...WHO [illegible] AND TRIUMPHED

A medal will be given by the Colorado Springs county branch of the Colorado Humane society to the police officer or agent of the society making the best record for humane acts during the coming year.

At the 5th annual meeting of the society yesterday afternoon at All Souls Unitarian church it was decided to give a handsome silver medal, appropriately engraved to the police officer or agent who did the best work for the cause of the society. The practice of giving medals annually to those doing acts of kindness is followed by the Boston Humane society and the results have been more than satisfactory.

At the meeting yesterday the chief topic of discussion outside of the reports of the secretary, Francis H. Hill, and the treasurer, George H. Buckman, was the new ordinance before the city council making it inhumane and a violation of the city laws and subjecting the offenders to arrest by local police officers. These bills will come up for a vote before the city council in the near future and it is believed that they will be passed. The members of the society expressed their satisfaction at the progress that had already been made with the ordinances and it is with the intention of securing the enactment of the laws in every case that the medal is offered.

The report of the secretary was a review of the work of the society during the year and a number of cases were recalled where ill treatment of animals and cruelty to children were prevented, suffering animals relieved and tow [illegible]. The figures for the year showed that about 150 had been added during the past year to the membership roll. The society was in attorney's fees, the money having been allowed for that purpose by the city council. The election of officers resulted in the old officers and directors being elected for the coming year. The officers of the society are: President, Dr. James A. [illegible]; vice president, Charles B. [illegible]; secretary, George [illegible] Buckman; treasurer, [illegible] McKinney; attorney, J. A. [illegible]; directors, W. [illegible] Kelly, [illegible] Mrs. M. E. Robinson, [illegible] and Miss Sarah [illegible].

The question of providing [illegible] means to prevent cattle from suffering from [illegible] during the winter was also [illegible] account of the magnificent [illegible] now [illegible] result. It was [illegible] as there are no cattle [illegible] from Rocky [illegible] the winter [illegible] although it is [illegible] there is very small [illegible] of [illegible].

GOLD HILL DEVELOPMENTS

Incidents at the Carbonate Camp of the Little Valeria Company Will Make a Shipping Mine—Leases on the High Fronties Claim—The Cardinal Also Has Good Showing.

[illegible] to the Times.

Gold Hill, May 6.—Interesting [illegible] the Cardinal claim of the Little Valeria Company, situated near [illegible] and adjoining the Cardinal claim, as well as to the Cardinal itself, as a spur of Gold Hill, will [illegible] into a shipping mine.

The property has been kept very quiet [illegible] as this but a few days ago a native of Ireland visited the district [illegible] and was taken into the [illegible], who are having ore [illegible] from present stopes taken [illegible] by the picture. The company while [illegible] one block of the Cardinal [illegible], struck a rich body of ore in the [illegible] which is said to run from 100 to 150 feet from a place from which [illegible] ore was formerly shipped running from $30 to $40 per ton.

Another block of this same claim is being worked under lease to Davis and [illegible], and as they have opened up a body of ore from 12 to 18 inches in width that runs from $30 to $40 to the ton. The vein was encountered practically at surface. While somewhat broken, it is comprised of native rock, with free gold running through it. The lessees now have nearly a carload ready to be sent out to the smelters.

A little further along Mr. Delahaire is working on what is known as the Lydia Thurston, which joins the Cardinal. This lease is also having a shipment and from all appearances the ore is adding from the same vein upon which Davis is working. Mr. Delahaire encountered the ore some 15 or 20 feet from the surface.

On all three leases development work will be pushed with all speed, as the operators believe with depth the vein will be found much more in place, and a great deal richer. The Little Valeria company which owns this property is a Cripple Creek institution, officered by such well-known gentlemen as J. J. McDermott, A. M. Cranmore and J. Lehman. The Cardinal claim is an old location, having been located in '92 and '93, and which produced a large amount of ore in '95 and '96, at which time the company got into litigation, which caused the property to be closed down until all litigation was settled. This was accomplished in '99, the owners of the property winning out on every proposition. Since that time the property has been worked off and on by lessees and on company account.

Central.

At a depth of 30 feet, Lessee Moore and others have opened a promising looking vein on the Unexpected claim of the Central Consolidated company's ground at Windy Point. The vein is six feet in width, and contains quartz seams all through it that show the yellow metal in good quantities. The lessees believe that the main vein of the property has been encountered, and that the source of the ore has been found. The company is also pushing work on the main shaft down the hill; the ore now drifting in the 400-foot level for the ore shoot which it is expected they will reach with any shot. In the third level ore is being broken three and one-half feet in width from which regular shipments are being made that return values of $40 to the ton.

Dexter.

The leasing company operating the Dexter property on Bull hill, adjoining the Blue Bird, are pushing the work of crosscutting at a depth of 420 feet. The company is driving to cut the Fluorine vein which is known to exist in this property, and where it is expected some good ore will be encountered.

BROKERS BUSSED OUT $2,500 FOR RESERVE

The members of the Colorado Mining Stock exchange [illegible] yesterday subscribed $750 to the fund being raised to secure the resurrey of the Cripple Creek district. This action on the part of the brokers practically assures the success of the campaign for securing the funds as there now remains only about $200 to be subscribed. The subscriptions yesterday were in $10 and $5 subscriptions, most of the brokers responding to the appeal made by the exchange and by the Cripple Creek committee who are pushing the project.

Those who subscribed $10 each were Morris, Wilson, Aldrich, Dorsey, Mathew, Talpey, Moore, Good, Boynton, Mandeville, D. V. Donaldson, Wright, Aitken, Price, Otis, and the firms of Tucker & Ballard and Bernard & Ford, the members who contributed $5 each were Messrs. J. H. Gardiner, De La Vergne Barclay, Young, Pape, H. Gardiner, Wall, Stovell, Day, Williamson, Weymand, Heizer, Key, Newman, Morath, Keller, McIntyre and the Hickey-Shimp Investment company.

It is expected that several other brokers will be heard from today, and those who are pushing the matter feel confident that the entire $2,500 will have been raised tomorrow night or by Saturday at the latest.

The time for the raising of the amount has been extended until May 15, but the committee has no idea of being obliged to wait until the last minute as was the case before the extension was granted. It is understood to be the government's intention to start the work early during the summer and to push it as rapidly as possible as there are numerous other districts clamoring for new surveys.

COLORADO SPRINGS MINING STOCK EXCHANGE

The market on the Mining Stock exchange yesterday was what might be called a Pearson hill market as the principal activity was in stocks representing Beacon hill properties. All stocks in this portion of the camp were strong and higher. The trading, however, was confined to the [illegible] department.

The leader in the advance movement was Old Gold, which sold up to 5¼ cents per share, and this stock was also the heaviest dealer on the list, 13,000 shares changing hands from 5¼ to 6¼. The opening sale was made at 5¾ which was one-eighth above any previous quotation and the close was at the top notch of the day, and also in the history of the stock.

Merrimac was strong at 1¼ and Banner Gold was traded in at 1 cent per share, although only 2,000 shares were sold. Texas Girl sold at 15 per 1,000 shares, 5,000 shares going at this figure. Black Bulls was fairly strong at 4 and C. K. and N. was rather weak at 19.

Outside of the Beacon hill clays there was but little demand and Anaconda sold at 14¼ with Gould fairly strong at 3¼. Rose Maud sold at 3¼ and Spar was traded in at 6 per 1,000 shares. Anaconda was the only stock handled which sold above the price at which Old Gold went.

DEVELOPMENT OF THE ROSE NICOL

The lessees on the Rose Nicol property on Bull hill report that they are saving a lot of ore for a third shipment to be made the [illegible] of this week or the first of next week. The ore is coming from a depth of only 40 feet and the initial shipment pays for the mining and expense of that and in the intention of the lessees to [illegible] work through the tunnel [illegible] under the property and is expected for the [illegible] at a depth of [illegible] feet. This tunnel will run a natural to [illegible] the ore body 25 feet deeper than the [illegible]. There it is now [illegible].

EASTERN MARKETS

NEW YORK STOCK LETTER.

Dennis from J. S. Bache & Co., to Otis & Hough, Bankers and Brokers, 127 Pike's Peak Ave.

New York, May 6.—As the generality of operators had been expecting gold shipments to a considerable extent their failure to materialize had a good effect on general market sentiment and encouraged a continuation of operations by the trading element and various cliques for the rise. The conspicuous weakness in National Lead was on inside selling on discussion between the management and the Guggenheimer interests over the proposed merger for a greater lead combination with it is said will cause the entire matter to be dropped. General sentiment is still inclined to be bullish and with any encouragement in the way of new buying or a continuation of aggressive pool operations, the general market could be advanced still further. Foreign exchange closes strong at $4.88¾ for demand sterling. Gold could be shipped at a profit to London direct by Saturday's steamer at $4.85¾.

J. S. Bache & Co.—The strength in Rock Island caused a number of rumors that the deal between Frisco and the Rock Island interests was under advisement and would shortly materialize. While the western crowds of operators were not willing to show the buying there were strong evidences that they were in the market on the buying side. The strength in Missouri Pacific reflected the large gross earnings for the month of April. The buying was considered excellent, and came from the Goulds.

CHICAGO GRAIN & PROVISIONS.

Furnished by Logan & Bryan to Otis & Hough, Bankers and Brokers, 127 Pike's Peak Ave.

Chicago, May 6.—Wheat—Liverpool ¼ to ¾ higher, Paris unchanged to ¼ lower. Antwerp unchanged. Market was extremely dull all day but broke at the close. There has been enough bad crop news in past few days to cause a good deal of covering by shorts and to accumulate some long wheat in the pit. There is not enough of it today to support the advance, and it is rather better weather and a poor cash position generally if it went overboard. Armour could be judged Armour was a buyer of July wheat in a small way, but his operations are by large enough at the moment to put prices even in the May option. The whole situation seems dull and waiting one. Estimated cars 35.

Corn—Liverpool unchanged to ¾ higher. It looked like wet weather through the west this morning and the market is more strong on that. Later indications for hot or weather caused weakness and a good deal of scattered liquidation. There is nothing urgent in the cash situation and the market is more affected by weather than anything else. Conditions for planting have only the whole not been favorable and better weather will be urgently needed from this time on. Estimated cars 180.

Oats—Market was fairly active. It sold up early on outlook for rain and spill of later on prediction of better weather. Nothing in cash situation of importance. Estimated cars 115.

Provisions—Market was a little stronger. Receipts, hogs, 71,000 against 68,000 last year. Prices at the yards about 10c higher. There was a better cash demand particularly for lard and less pressure from scattered liquidation. The buying is however not on a large scale and we are still of the feeling that on sharp rallies provisions should be sold.

New York, May 6.—Copper closed 1-8 higher in London for spot and 1-8 to 1-4 for futures with both positions quoted at £81 7s 6d. The local copper market was dull and nominally unchanged at $14.50@14.75 for lake, electrolytic and casting. Lead was unchanged at £13 18s 9d in New York and at £13 18s 9d in London.

Chicago Cattle Market.

By Associated Press.

Chicago, May 6.—Cattle—Good to prime steers, $5.10@5.65; poor to medium, $4.00@5.00; stockers and feeders, $3.25@5.00; cows, $1.50@4.75; heifers, $2.50@4.90; canners, $1.50@2.80; bulls, $2.50@4.60; calves, $2.50@6.50; Texas fed steers, $4.00@4.75.

Hogs—Receipts, 28,000. Generally 10 cents lower, and butchers, $6.75@6.85; good to choice heavy, $6.60@6.75; rough heavy, $6.50@6.65; light, $6.45@6.80; bulk of sales, $6.70@6.80.

Sheep—Receipts, 14,000. Sheep steady, 10 to 15 cents lower; lambs, steady to strong. Good to choice wethers, $5.00@5.60; fair to choice mixed, $3.75@4.90; western sheep, $3.75@5.10; native lambs, $4.50@7.25.

Denver Cattle Market.

Denver, May 6.—Hogs—The hog market this morning reached the low point in some time, prices being 5@10c lower than at the close of the market yesterday. Receipts were liberal, over 1,000 arriving for the market. The quality of the hogs on the market was fair to good and $6.75 was paid for the best. The range was from $6.55 to $6.75 and the bulk sold at the top of the market. The market ruled lower here in sympathy with a decline at the eastern markets. The demand continues strong with river prices prevailing.

Sheep—The sheep market was dull, as the stock that arrived for the market got in too late to be disposed of. The demand is best for muttons and lambs, and prices are stronger than last week.

Cattle—Cattle receipts were very light this morning, only two loads and a few from the country on sale, hardly enough to make a market. The offerings, however, showed good quality, and it did not take long to clear up the yards. One of the loads that arrived consisted of cows and steers from Nebraska, the cows selling at $4.10, which was the top price paid for cows this year. The steers in the shipment sold at $4.50@4.90. A load of cows from Brush sold at $4.00, and averaged 715 pounds, the quality being good. Not enough trading was done to test the strength of the market, but the undertone is steady.

BECOMING A MOTHER

Is an ordeal which all women approach with instinctive fear, for nothing compares with the pain and horror of childbirth. The thought of the suffering and danger in store for her, robs the expectant mother of all pleasant anticipations of the coming event and casts over her a shadow of gloom which cannot be shaken off. Thousands of women have found that the use of Mother's Friend during pregnancy robs confinement of all pain and danger, and insures safety to life of mother and child. This scientific liniment is a god-send to all women at this most critical time. Not only does Mother's Friend carry them safely through the perils of child-birth but its use thoroughly prepares the system for the coming event, prove to "morning sickness," and other discomforts of this period. Sold by druggists at $1.00 per bottle. Book containing valuable information mailed free.

The water supply is the first consideration in selecting farm land in an irrigation country. The Grand Valley has the largest and most reliable water supply in Colorado.

Grand Valley fruit is superior to that raised in any other part of the west. It has taken first prize every place it has ever been exhibited.

The Grand Valley has the best climate in Colorado. The winters are mild and short. The summers cool and pleasant. It is the most healthful part of the State.

One of the largest Government canals will be constructed in the Grand Valley this season. Canal land under this canal can be bought now at $10 and $12 per acre. It will be worth $30 as soon as the canal is placed under construction.

We are the largest dealers in farm lands in the west. Send for our literature. It gives full information of the Grand Valley, descriptions and prices of all kinds of farm lands for sale. Enclose six cents for postage.

We furnish cheap transportation to see our properties. Free if you buy.

GRAND VALLEY FARMS.

FRUIT FARMS.

GENERAL FARMS.

STOCK RANCHES.

ALL SIZES. ALL PRICES

The water supply is the first consideration in selecting farm land in an irrigation country. The Grand Valley has the largest and most reliable water supply in Colorado.

Grand Valley fruit is superior to that raised in any other part of the west. It has taken first prize every place it has ever been exhibited.

The Grand Valley has the best climate in Colorado. The winters are mild and short. The summers cool and pleasant. It is the most healthful part of the State.

One of the largest Government canals will be constructed in the Grand Valley. Choice land under this canal can be bought now at $10 and $12 per acre. It will be worth $50 as soon as the canal is placed under construction.

We are the largest dealers in farm lands in the west. Send for our literature, it gives full information of the Grand Valley, descriptions and prices of all kinds of farm lands for sale. Enclose six cents for postage.

We furnish cheap transportation to see our properties. Free if you buy.

WILL COLORADO EXHIBIT AT THE ST. LOUIS FAIR

Possibility of Failure to Make the Appropriation Measures Taken to Assure the State Against Forfeiture.

Special to the Gazette.

Denver, May 6.—It is a legal that a shortage has been discovered in the accounts of the state land board, and rumor says that practically $6,000 has been stolen from the land office by one of the former clerks.

Deputy State Register Wood iff and Allan C. Redman, who held the office previous to Mr. Woodruff, are at odds. Mr. Woodruff has demanded the book containing the advertising accounts kept by the former deputy, and it is said that Mr. Redman refuses to give them up.

Former Register John T. Joyce was notified of the alleged shortage and called at the capitol to confer with Mr. Woodruff. Mr. Joyce says that he had seen Mr. Redman, and that he promised to call on Mr. Woodruff last Monday and explain things. Mr. Redman stated to Mr. Joyce that the book was his private property and that it did not belong to the state. Mr. Redman did not call at the state house Monday as he is said to have promised to do.

To Collect License Fees.

Wholesale arrests of insurance solicitors in this state are threatened by the state insurance department. Two thousand agents are said to be doing business without a license from the state. They are compelled by law to pay $2.00 a year for the privilege of transacting business. Licenses are dated from February 1, and must be renewed between January 1 and the first of March in each year.

An officer has been appointed by Auditor Holmberg for the purpose of arresting all insurance solicitors who have not taken out the license. This is the first time in the state's history that such a thing has been done.

Colorado Springs Witnesses.

Colorado Springs men were in court today as witnesses for Attorney John Johnson, who, as Red Price who is on trial in the West Side court, charged with the murder of Charles Dowe, an Colorado Johnson's attorney, is brother of Judge Johnson, the presiding justice.

The defense claims on the testimony of he Colorado Springs men, who testified that on October Johnson went into the office of Dr. J. A. Lesce of Colorado Springs, and that Lesce's wounds endangered. Tom there threatened he would Kansas City. Both Dr. Leach and W. Fitzgerald of Colorado Springs, who was in office at the time Johnson had his thumb dressed, testified to the severity of Johnson's wound. No one who was in the room holding testified to seeing the bandage on either of Johnson's hands.

Draw Heavy Fines.

It is plain James H. Brown now without any prefixed militia titles. To his boys he's the same Jim Brown, but he may colonel never went well with the name anyway, even if he gorgeous uniforms that went with the title did look "purty."

Reports interviewers published that Mr. Brown remains an officer of the National guard with the rank of major, he proved incorrect. When interviewed by your correspondent today, the former colonel and major said: "My resignation as colonel on Governor Peabody's staff was accepted yesterday, and I was out of the National guard before I left for St. Louis. I am no longer a member of the militia guard or the governor's staff."

Farmer's Appointment.

Charles F. Parker of Julesburg, superintendent of schools for Sedgwick county, was today appointed a member of the State Normal examining board.

Other News Items from State Points

INCORPORATION FEE OF TWO THOUSAND DOLLARS.

Denver, May 6.—Incorporation papers were presented for filing today with the secretary of state for the Royal Gold and Copper Mining company, with a capital stock of $10,000,000. The board of directors for the first year are C. C. Parsons, Harry W. Johnson, William L. Johnson, Clever Caughey, Frank Knox, Joseph Hone aw and E. F. Brendenthal. The stock of the company will be divided into 1,000,00 shares at $10 each. The principal office will be in Denver, and there will be branches in Salt Lake, New York, Chicago and Boston. The check accompanying the papers for the incorporation fee of $5,010 was not accepted by the secretary of state, as he did not know the standing of the person forwarding it. The incorporation will thus be delayed for a few days. The company will operate in Beaver county, Utah. It is understood that Samuel Newhouse, although his name does not appear as a director is very heavily interested in the enterprise.

The San Juan Mining & Smelting company also filed papers today, the capital stock being $1,500,000. The deal was consummated by W. E. Kendrick and involves the consolidation of two of the largest smelters, outside of the trust, in San Juan county.

DEATH OF PROMINENT CLUB WOMAN OF DENVER.

Denver, May 6.—Mrs. Ella K. Leech died at St. Joseph's hospital this morning, death resulting from appendicitis. Mrs. Leech was prominent in local political and club circles and was quite well known to theatrical people over the country, having toured with several of the best-known minstrel and show companies. She was at the time in expert danger. Deceased was 46 years of age and had lived here for the past five years. She was a member of the Woman's club and the state federation.

NEGRO MINERS THINK THEY HAVE GRIEVANCE.

Florence, May 6.—Negroes employed at the Chandler mine are highly incensed at the treatment they have received from the company, and a number of them have quit work. Sixty-six of them were brought here a month ago from the east, and have been working since for the Victor Fuel company, operating the Chandler. When they received their pay checks they claimed that they were all short. Agreement was that they should receive $3 cents per inlooking coal. The miners had taken out on a basis of 61 cents per inlooking and 48 cents for loading, and they have been docked for their railroad fare. About half of them quit work, and it is said the others will go soon.

STOVE DAMAGED $5,000 IN VICINITY OF HOLYOKE FIRE.

Holyoke, May 6.—Small grain was severely damaged here this afternoon by a heavy rainand hail storm. The storm was accompanied by violent wind, which did much damage to the building and windmill of A. W. Young, living two miles from town.

No one who was in the room holding testified to seeing the bandage on either of Johnson's hands.

Draw Heavy Fines.

It is plain James H. Brown now without any prefixed militia titles. To his boys he's the same Jim Brown, but he may colonel never went well with the name anyway, even if he gorgeous uniforms that went with the title did look "purty."

Reports interviewers published that Mr. Brown remains an officer of the National guard with the rank of major, he proved incorrect. When interviewed by your correspondent today, the former colonel and major said: "My resignation as colonel on Governor Peabody's staff was accepted yesterday, and I was out of the National guard before I left for St. Louis. I am no longer a member of the militia guard or the governor's staff."

Farmer's Appointments.

Charles F. Parker of Julesburg, superintendent of schools for Sedgwick county, was today appointed a member of the State Normal examining board.

INCORPORATION FEE OF TWO THOUSAND DOLLARS.

Denver, May 6.—Incorporation papers were presented for filing today with the secretary of state for the Royal Gold and Copper Mining company, with a capital stock of $10,000,000. The board of directors for the first year are C. C. Parsons, Harry W. Johnson, William L. Johnson, Clever Caughey, Frank Knox, Joseph Hone aw and E. F. Brendenthal. The stock of the company will be divided into 1,000,00 shares at $10 each. The principal office will be in Denver, and there will be branches in Salt Lake, New York, Chicago and Boston. The check accompanying the papers for the incorporation fee of $5,010 was not accepted by the secretary of state, as he did not know the standing of the person forwarding it. The incorporation will thus be delayed for a few days. The company will operate in Beaver county, Utah. It is understood that Samuel Newhouse, although his name does not appear as a director is very heavily interested in the enterprise.

The San Juan Mining & Smelting company also filed papers today, the capital stock being $1,500,000. The deal was consummated by W. E. Kendrick and involves the consolidation of two of the largest smelters, outside of the trust, in San Juan county.

DEATH OF PROMINENT CLUB WOMAN OF DENVER.

Denver, May 6.—Mrs. Ella K. Leech died at St. Joseph's hospital this morning, death resulting from appendicitis. Mrs. Leech was prominent in local political and club circles and was quite well known to theatrical people over the country, having toured with several of the best-known minstrel and show companies. She was at the time in expert danger. Deceased was 46 years of age and had lived here for the past five years. She was a member of the Woman's club and the state federation.

NEGRO MINERS THINK THEY HAVE GRIEVANCE.

Florence, May 6.—Negroes employed at the Chandler mine are highly incensed at the treatment they have received from the company, and a number of them have quit work. Sixty-six of them were brought here a month ago from the east, and have been working since for the Victor Fuel company, operating the Chandler. When they received their pay checks they claimed that they were all short. Agreement was that they should receive 61 cents for inlooking coal. The miners had taken out on a basis of 61 cents for inlooking and 48 cents for loading, and they have been docked for their railroad fare. About half of them quit work, and it is said the others will go soon.

STOVE DAMAGED $5,000 IN VICINITY OF HOLYOKE FIRE.

Holyoke, May 6.—Small grain was severely damaged here this afternoon by a heavy rainand hail storm. The storm was accompanied by violent wind, which did much damage to the building and windmill of A. W. Young, living two miles from town.

REACTING AND LIGHTING PLANT FOR PENITENTIARY.

Canon City, May 6.—The state penitentiary will at once have $10,000 in improving the heating and lighting plant. This amount was decided upon yesterday at the meeting of the penitentiary commissioners. The two new

The congress was composed of delegates, users of government water. Together one with the government for the purchase of water will be attended to once.

FATAL ACCIDENT IN VICINITY OF TURRET.

Turret, May 6.—Mrs. Mary W. Meslock this afternoon was thrown from the vehicle she was driving and almost instantly killed. The horse she was driving became unmanageable while going down a steep hill, and Mrs. Meslock was hurled from the buggy and her skull was fractured. She leaves a husband and several children.

WESTERN LEAGUE.

BIG FAIR.—Pike's Peak company No. 10, U. R. K. of P., will hold a big fair in Temple theater during the last week in May. The fair is to be given to raise money to send delegates to the next supreme lodge meeting. This will be held in Louisville, Ky., in August.

ENTERTAINED.—An entertainment and pox social was given last evening to the Johnson & Wilbur hall by the members of Duquesne council No. 12, Jr. O. U. A. M. A large number of the members and their friends were present. The proceeds of the box sale will be devoted to the purchase of new uniforms.

PASTOR HERE.—Dr. Carter, of Kansas City, is in the city visiting friends for a few days. He preached at the West Presbyterian church last evening. Dr. Carter preached the sermon to President Roosevelt at Sharon Springs, Kansas.

AT PRINCETON.—Press dispatches announce the graduation at Johns Newcomb, a son of Mr. and Mrs. Colorado college, from the Princeton Theological seminary at Princeton, N. J. Newell was a student at Colora le college three years and is well known to a number of local people. He studied for the degree of B. A.

The holdups escaped with little booty.

DIETZ'S INDORSEMENT

Dietz's Ice Formula is Submitted to Them.

Alexander McMillan, M. D., a prominent physician of Lenawee, Michigan, writes: "On three occasions I have tested Dr. Isler for dandruff and the result has been all that could be desired."

Time will not permit us to enlarge upon it, but in fact, that dandruff and falling hair are caused from a microbe that infests the hair bulb, and by destroying the microbe one's hair is bound to grow luxuriantly. Her jicide is the only preparation that claims to and positively does destroy the dandruff germ. Sold by leading druggists. Send 10c in stamps for sample to the Herpicide Co., Detroit, Mich.

Modern Woodmen of America Completed Business Earlier Than Expected.

Special to the Gazette.

Cripple Creek, May 6.—The second biennial session of the state camp, Modern Woodmen of America, is now practically a matter of history, having come and gone. It was expected that the session would last for two days, but at 1:30 this afternoon an adjournment was taken. Officers reported the affairs of the order in excellent order, but no decision could be affirmed for publication. Colorado Springs was selected as the next meeting place, and the following is a list of the officers selected for the next two years: state counsel, Guy Adams of Pueblo; state advisor, B. R. Voltz of Grand Junction; state [illegible] J. L. Mayfield of Delta; state clerk, W. T. Tilsney of Greeley; delegates to national convention, I. E. Harper of Denver, R. M. Herriott of Colorado Springs, E. H. Northcutt of Akron, J. W. Willits of Pueblo, and A. B. Striker of Trinidad.

The only thing that Cripple Creek asked for in this convention was for Fort Tully Hall to be sent to the national convention as a delegate, but Cripple Creek was not given a single office.

This afternoon day's tee were given a ride over the electric lines, and many of them accepted the invitation of the Woods Investment company for a trip from the economic mill to the Gold Coin mine, through the United Mines tunnel. A few of the delegates will remain in the city for a day or so, but most of them left for their homes this afternoon.

Lyslght Brings Suit.

The city of George N. Lyslght, county attorney, brought against George Olmstead and several other men, on the charge of having assaulted him at his home was called up before Justice Harrington this afternoon, but a change of venue was taken to Justice Patrick's court. It is understood that later the case will be carried to the district court by Mr. Lyslght on the charge of riot.

Facts leading up to the assault are peculiar. Mr. Lyslght and others have a lease on the Caribe claim and it is through this claim that the old Ophelia (tunnel is getting its air by means of an electric wire. Mr. Lyslght and his partners are in the field to sell their lease to the company operating the tunnel, and in the end that corporation may be compelled to buy, but at present they hesitate. When yesterday morning Lyslght and his partners had the wires cut and the men in the tunnel had to quit work for want of air. In doing this Mr. Lyslght had no grievance against the men, as he wanted only that their employers should buy him out. The men took the matter up, and went to the home of Mr. Lyslght and hot words resulted in blows. Mr. Lyslght insists that as his shaft furnishes air for the tunnel he should be paid for it.

Warrants were sworn out today by Jas. F. Parfet of the tunnel company against Mr. Lyslght, charging him with maliciously assaulting him in the national hotel last evening. This means another case.

Congregational Churches.

The 32d annual meeting of the Arkansas Valley Association of Congregational churches was called to order this afternoon in this city. Quite an elaborate program has been arranged for the entertainment of the visitors while here.

Among those who will address the convention are President Slocum of Colorado Springs, Rev. Blanchard, Walter Wessle, Allen Bush and Maurice Sanderson of Denver, H. E. Heyse of Leadville, Manly D. Clarke and C. H. Harger of Colorado Springs, R. W. Gammon of Pueblo; Arthur Teger of Coal Creek; Herbert Latha of Manitou, and Frank Eckel of Rye.

The convention so far has proved very successful. President Slocum of Colorado college, addressed the convention this afternoon, taking as his subject: "What American Christianity Can Learn from English Christianity."

SUICIDE AVERTED AT MEDICAL CONVENTION

By Associated Press.

New Orleans, May 6.—Sectional meetings by the delegates to the American Medical association are busy. There were several meetings in the forenoon and a dozen in the afternoon. Dr. Adolph Lorenz was a conspicuous figure at the section of surgery and anatomy. He was immediately recognized upon entering the hall and introduced from the chair by Dr. Moore. Dr. Lorenz says he is simply here as a visitor with no desire to appear as a participant. As a result of interesting papers read by Drs. H. M. Bracken and Creasy L. Wilbur and Hon. W. A. King of the census bureau, resolutions have been passed by the hygiene and science department impressing physicians throughout the country with the necessity of co-operating with the census bureau in recording vital statistics and improving the method of determining these causes of death.

At a meeting of the section of materia medica, pharmacy and therapeutics over which Dr. Solomon Solis Cohen presided Dr. Robinson read a committee report declaring that there were too many "patent medicines" and proposed an act of congress to limit the sale of poisonous and dangerous patent medicines.

Dr. John C. Black of Chicago read an interesting paper before the diseases of children section on the development and care of children.

The Southern Medical College association has elected Dr. Chisholm of Richmond, president, and Dr. G. C. Savage of Nashville secretary-treasurer and selected Birmingham for its next place of meeting.

The American Medical editors have elected Dr. H. Dunn Fenn of Philadelphia, president, Dr. Charles Chaffe of New Orleans and Dr. O. [illegible] of St. Louis vice presidents and J. McDonald, Jr., of New York secretary of treasury.

Milwaukee will make a strong bid for the next convention.

Most of the interest today centered in the opening address delivered by Dr. [illegible] of the Christy hospital. His [illegible] was [illegible] any man to consume [illegible] by the [illegible]

FIVE NEW MEMBERS JOIN THE CHAMBER

The campaign for new members which has been started by the membership committee of the chamber of commerce has resulted in the addition of five thus far this week, and but little attention has been given the matter on account of the work incident to the reception of President Roosevelt. During this week Martin Slaughter, Herbert Skinner, Fred W. Stohr, Henry Brewer and the Colorado Securities company have become members of the organization and several others will probably come in during the week.

CITY FATHERS WANT TO KEEP EARLY HOURS

The city fathers at their meeting tonight may possibly change the time of calling the council to order, from 8 o'clock to 7:30. Under the rules of the old council it is provided that during the months of May, June, July and August, the council shall be called to order at 8 o'clock, but the sentiment among those members who have so far expressed themselves, seems to be in favor of holding earlier meetings. The rules of the old council were adopted as the rules of the new body at the meeting Monday night. The provision regulating the time of meeting, however, was not understood and it is probable that a motion will be introduced tonight to modify the rules to the extent mentioned above. President J. C. St. John and Dr. Geo. Dunbar, chairman of the finance committee, have both expressed themselves as being in favor of the change.

BOBBIE NEWCOMB WILL OPEN HIAWATHA JUNE 1

According to the present calculations of the management, the Hiawatha resort will be opened to the public June 1. Bobbie Newcomb, the manager of the institution under the new owners, has moved into the buildings and will make his home there for the summer. The household goods will all be moved in this week and the family settled, while the changes to be made in the building and the grounds will be started. It is understood to be the intension of the management to keep the place open every day in the week.

While all the improvements will not be completed by June 1, it is not expected that those to be made will interfere with the formal opening on that date. The grounds will receive considerable attention and it is expected that much of this work will have to be done after the place is ready for business. The citizens of Manitou are responding to the support expected by the new owners and Mr. Newcomb states that he will conduct the place on a first-class basis, catering especially to women and children.

THINKING SERIOUSLY OF VISITING THIS CITY

The Arkansas Valley Press Association will probably visit the Pike's Peak region on its trip to the west in August, in response to the invitation and suggestion sent the association by Charles Deacon, superintendent of the Printers' home, the association has made further inquiries, and Secretary Wray of the chamber of commerce has sent literature pointing out the attractions of this section. This information, together with a personal letter will reach the association in time for consideration at the meeting of the executive committee to be held May 13, when the itinerary will be mapped out.

MANITOU HAS BUSY SESSION

A large amount of routine business was transacted at the meeting of the town board of Manitou. Bills for the past month were allowed and warrants ordered drawn for the amounts. The bills allowed amounted to about $3,000, included in which sum was the payment of the water company and bills incurred in the recent work on the streets of the city.

The trustees decided to open bids for the bonds to be issued by the city for the purposes of extending the sewer system, putting in new lines in different portions of the city. The entire issue will be in the neighborhood of $12,000. One bond buyer was present Tuesday evening and stated that a higher rate of interest would have to be provided for in the issue as bond buyers were demanding an increased rate all over the country. The rate of interest, therefore, will be an important matter of discussion between now and the time for receiving the bids.

It was decided to extend Waltham avenue to Capitol Hill avenue, a distance of about three blocks, and it is anticipated that the cost will not be more than $500 and possibly less, although difficulties may be encountered which are not anticipated. The principal part of the work will be grading as but little hauling will be required.

The board vote that the present suit against the city concerning the sidewalk grade, brought by John W. Weeks should in no interfere with the building of the sidewalk in front of Mr. Weeks' premises, and the sidewalk will, therefore, be put in according to present arrangements.

PARK NOTES. STREET NEWS.

Alfred Byron of 526 High street was arrested last night while he was trying to break the windows of the house where he lives with a hatchet. Byron rooms with Mrs. Charles Hase and came home last night, according to the police, in a drunken condition. Mrs. Hase would not allow him in the house and he went to the back yard and smiting himself with a hatchet began chopping away at the windows. He had shattered several windows before the police could be summoned. When they did arrive with the patrol wagon he was very submissive and changed his mind about the task he had in hand. He will be arraigned before Judge Hammond this morning to answer the charge of being drunk and disturbing the peace. Mrs. Hase and two children will appear as witnesses against him.

During the absence of Detective J. H. Gregory, Captain Thomas Cole of the police department will perform the work of a detective. Captain Cole has had charge of the police headquarters at night, but this change employs him during the day. Detective Gregory is present on a leave of absence.

Danger of Colds and Grip.

The greatest danger from colds and grip is their resulting in pneumonia. If reasonable care is used, however, and Chamberlain's Cough Remedy taken, all danger will be avoided. Among the tens of thousands who have used this remedy for these diseases we have yet to learn of a single case having resulted in pneumonia, which shows conclusively that it is a certain preventive of that dangerous disease. It will cure a cold or an attack of the grip in less time than any other treatment. It is pleasant and safe to take. For sale by all druggists.

FILED ON RECORDS OF COUNTY CLERK

In the county clerk's office yesterday a deed was filed transferring the east 25 feet of lot 21 in Phillips addition to Colorado Springs, from William D. Crawford to Elizabeth A. Carr for $1,850.

An option reading to the Colorado School for Deaf and Blind was filed by Fred L. Davis to a lot in the district back of the school which is now being purchased for the establishment of a playground.

IN POLICE COURT

The case of Otto Pohringer, arrested for violation of the liquor laws of the city, was called in police court yesterday and his trial set for May 13.

In the police court John Doe was fined $10 and costs for being drunk, and Charles De Saver was fined the same amount for the same offense. Fred and Charles Payne were fined $20 each for vagrancy. De Williams was fined $5 and costs for loud and reckless driving.

Y. M. C. A. NEWS

Another rehearsal of the Y. M. C. A. Mandolin club was held last night. The members of the club are preparing for the concert to be given May 28. There are about 25 members in the club.

I. G. Jenkins, of the West District Y. M. C. A. of Detroit, Michigan, addressed the young men of the local Y. M. C. A. after the regular evening prayer service last night. Mr. Jenkins told of the recent convention of the railroad Y. M. C. A. organizations held in Topeka, Kansas. Mr. Jenkins was a delegate to the convention as he was a member of the first railroad association formed. There were over 1,800 delegates at the convention, representing 600,000 members of the 180 railroad associations in the country. The general manager of an eastern railroad, who had risen to that position from that of water boy, and a number of foreigners were among the guests at the convention.

O. E. Bourne, secretary of the boys' department at Worcester, Mass., stopped in the city yesterday en route to California, and paid Secretary Arnold of the local boys' department a visit.

REPRESENTATIVE OF THE RIO GRANDE IN MANITOU

The Denver & Rio Grande railroad is proceeding to carry out plans contemplated last winter for building a new track from Pueblo to Walsenburg. At miles in length, costing in the neighborhood of $3,000,000. The surveys have been completed, estimates furnished the contractors and bids have been received by chief engineer Yard. A grade of about one per cent has been secured and the distance over the present line, which is used jointly by the Rio Grande and the Colorado & Southern, will be shortened 10 miles. The prime reason behind the construction is said to be the business of the Colorado Fuel & Iron company between Pueblo and Walsenburg. The new line, as does the present road, will have connections with the Colorado & Wyoming railway, which is owned by the Colorado Fuel & Iron company.

A Raymond and Whitcomb excursion is booked to arrive in Manitou Friday afternoon to remain in the vicinity for a period of three days, leaving Manitou for Denver Tuesday. The entire party, which consists of 100 people, has arranged to make headquarters at the Cliff house. A trip to Cripple Creek, an ascent of Pike's Peak by the cog road, and other excursions are on the program for the three days' stay.

By Associated Press.

Omaha, Neb., May 6.—Complete returns from yesterday's city election gives Mayor Moores a plurality over Benson, the Citizens candidate, of 956 and 1,800 over Howel, the Democratic nominee. The Republicans also elected city clerk and treasurer, and the Democrats elected a comptroller, tax commissioner, city attorney and building inspector. The city council will stand seven Republicans and two Democrats. The vote was the largest ever polled at a city election here.

MERCHANTS PLAN BOOSTER IMPROVEMENTS

A movement is on foot among a number of merchants on Tejon street between Cucharras and Pikes Peak avenues for the formation of an improvement association which has for its object the improvement of that part of the street. Among the changes contemplated is the erection of eight new electric lights.

W. C. Jones, John W. Garrett and a number of others have taken part in conferences to this effect. The plans under consideration are being prepared with a view to benefiting business on Tejon street.

Mr. Jones has recently refitted the restaurant now run by him at No. 20 East Huerfano street, and has taken a lively interest in the improvement of that section. Nothing definite in the matter has yet been announced, but it has been suggested by the merchants that, in addition to the new arc lights, the sidewalks and gutters would be improved and the street generally put in the best of repair.

The approach of the tourist season, when business generally will be improved, is causing action at this time, and Mr. Jones and his associates in the movement are determined to put their section of town most in the lime light.
